R&M Data Center / LAN

Roadshow 2023 in United Kingdom

Dear Customer

We are glad to inform you that we are running the R&M Roadshow this year from April to November 2023 all over Europe. With Data Center and LAN, the roadshow features various new products in the field of communication and data networks.

The most important LAN and data center connectivity solutions from R&M are shown in the roadshow bus. From new technologies like Single Pair Ethernet (SPE) and Cat. 8.1 copper connectivity to Power over Ethernet proof cabling. Including fiber optical cables to various fiber optic panels and ODF solutions, the Netscale family supporting hybrid IoT applications and the DCIM application inteliPhy net.

Everything to manage connectivity, integrated within a complete system in the new R&M rack solution BladeShelter.

You are warmly invited to be part of the Roadshow 2023. Our experts are delighted to share the latest technological developments with you on **April 28 April** at the **Seba Service Offices** in Mechelen.

The Seba Service and R&M team look forward to see you .

Best regards

Reichle & De-Massari
